Terms and Conditions of Sale

Prices

Cash with order, or satisfactory references from purchasers who have not established credit with us.

Prices are F.O.B. Hampton, Virginia. We make no charge for packing. All items marked B&B are lifted with a ball of earth and burlapped. For quantities of 25 or more of one variety please write for special quotation.

All shipments are forwarded by express or freight collect. If you wish your order sent by parcel post, it will be necessary for you to include postage charges with your order; otherwise, parcel post charges will be sent C.O.D.

Liability

We are not liable for injury to stock from frost, hail, fire, or other causes beyond our control, and book all orders with this understanding. Errors made by us will be gladly corrected, but complaints must be made within ten days after receipt of stock.

Our liability ceases upon delivery to the transportation company and we are not responsible for loss, damage, or delay in transit.

Location and Shipping

We are located on the Peninsula of Virginia and have ideal climatic conditions for growing the stock we offer.

We pack secure and yet as light as possible so that shipments will reach you in good condition. A trial order will convince you of our high standards.

We are in a position to make shipments through the Chesapeake and Ohio Railroad and the Pennsylvania Railroad; also by boat to Washington, Baltimore, Philadelphia, New York and Boston.

Azaleas

We specialize in growing Azaleas, as our climate and soil are very well adapted to the raising of these beautiful plants. The Azaleas we offer are well grown under ideal conditions and are healthy and vigorous. A visit to our nursery, or a trial order will convince you of their high quality.

Our Azaleas are especially recommended for Winter forcing. They can also be used for garden planting through the Eastern States, with a little Winter protection.

Azaleas thrive best in a well-drained, loamy, acid soil and require very little attention; however, they should not be allowed to become dry.

Our Azaleas have a wonderful root system with the soil intact and are shipped with a ball of earth.
